讲座介绍｜
在本次公开讲座中，Christian Bergmann 博士将探讨智能在建筑中角色的转变。他借鉴了他的建筑作品，反思了参数化设计、制造和建筑现实之间的相互作用。该演讲讨论了气候变化、致密化和人工智能的颠覆性力量，同时开启了关于建筑如何应对 21 世纪挑战的对话。

Lecture introduction｜
In this public lecture, Dr.-Ing. Christian Bergmann will explore the shifting role of intelligence in architecture. Drawing on his built work, he reflects on the interplay between parametric design, fabrication, and the realities of construction. The talk addresses the disruptive forces of climate change, densification, and artificial intelligence, while opening a conversation about how architecture might meet the challenges of the 21st century.
