## Short Bio

### Dr. Christian Bergmann

Founder · CEO

---

Dr. Christian Bergmann is the Founder and Principal Architect of CBA.

Prior to that, he was a Partner and Head of Architecture at Hadi Teherani Architects in Hamburg. Over more than a decade, he was responsible for the design and implementation of numerous complex, mixed-use projects, including the Deutschlandhaus Hamburg, the Flare of Frankfurt, the Volksbankareal in Freiburg, and the Innovationsbogen in Augsburg. Before, he was a project manager at Werner Sobek in Stuttgart and UNStudio in Amsterdam.

As an associate to Professor Werner Sobek, he researched and taught at the Institute for Lightweight Structures and Conceptual Design (ILEK) at the University of Stuttgart.

His doctoral thesis, completed in 2013, presents a strategy for the development of innovation-promoting and sustainable processes in design and construction. He studied architecture at ETH Zurich and the University of Stuttgart, where he received his diploma in 2006.

Over the course of his career, his work has been recognized with prestigious architecture and design awards. He lectures internationally and regularly serves as a jury member and guest critic.

Dr. Christian Bergmann is the author of the book "Designing Processes - A Strategy for the Future of Construction", published worldwide in 2019 by Birkhäuser. He is a member of the Association of German Architects (BDA) in Hamburg.
